COURSE COMMITMENT

Course Title: L2 Games
Your Course Leader: Kashelle Dennis-Gayle

vJan24

Our commitment to you

This course supports the learner's journey into understanding their future pathway in games design.

Our education offer

Intent

You'll be taken along a journey that touches on practical skills in the early stages that then develops into a more specialised pathway.

Implementation

The course is designed as a linear programme that develops students' skills and abilities, with ultimate intention to get you ready for your next steps and individual progression route. The course encompasses multiple streams of games design such as, Photoshop, 3D, animation, VFX and game design.

Impact

The impact of this curriculum is reflected in the enriched educational experience it provides to learners. By aligning with industry standards and balance between theoretical and practical aspects, the curriculum ensures that students not only acquire theoretical knowledge but also develop essential skills applicable to real-world scenarios.

Expected behaviours and attitudes

Staff create a positive and encouraging working environment that supports the learners' ability to be creative which allows learners to take accountability for their education whilst also encouraging and implementing professional standards.

Intent

The primary intent is to foster a positive and encouraging working environment that actively supports your creative abilities. This environment is designed to empower you to take accountability for your education, nurturing a sense of ownership and responsibility. The overarching goal is to instil and uphold professional standards within the creative gaming industry.

Implementation

This is executed through deliberate actions that actively promote positivity and encouragement through communication, recognition of creativity and an inclusive, welcoming and fun atmosphere. You'll be provided with opportunities to express your creativity, and tutors facilitate an environment where learners feel comfortable expressing themselves creativity whilst also ensuring structure and a working environment that mentors learners to be the best version of themselves.

Impact

In this environment, learners evidence motivation and engagement, leading to a more enriching educational experience. The encouragement of creativity has allowed them to foster new skills that they can take away with them. Overall, the positive and encouraging working environment and a strong rapport with tutors has a lasting positive impact on the learners educational and professional journey.

Your personal and professional development

The course promotes an inclusive environment that helps to develop each learners' characteristics, our aim is to motivate, support and encourage confidence, with learners working towards their progression goals.

Intent

The primary intent of the course is to establish and nurture an inclusive learning environment that actively contributes to the development of your unique characteristics. The overarching goal is to create a setting that fosters motivation, provides support, and creates confidence in your creative ability to help support you on their next steps in education or work.

Implementation

The course employs a range of learning and assessment approaches. It incorporates inclusive teaching styles and personalized support that allows all learners the opportunity to achieve. The implementation strategy aims to create a supportive and encouraging atmosphere where learners feel valued and motivated to engage in their personal development. Through interventions and a focus on individual strengths, the course seeks to guide learners on a path toward achieving their progression goals.

Impact

The impact of the course is reflected in the positive transformation in the attitude to learning and education, which then supports personal development and confidence in education. As a result, learners are better equipped to work towards and attain their progression, career and character goals. The impact extends beyond the academics but contributes to influencing the overall self-esteem and resilience of learners as they navigate their personal and professional journeys.
