

WOLMER WOOD,

MARLOW COMMON,

MARLOW, BUCKS.

Feb. 20th 1933.

My dear Philip

I hope you got my phone message yesterday evening to say that Peter had gone through his operation very well and was getting on all right. I have seen him today and found him quite lively and in the best of spirits, he has to keep quiet and rest for some days, as he must not, of course, move about until his leg has healed, but he certainly seems to have stood the operation excellently and I hope now that he will progress steadily and have no further trouble. He did not complain of much pain but he is bound to feel a good deal of discomfort for a while. I am very glad that things have gone so satisfactorily — it is a great relief to us all.

Did you escape the snow on your

journey home on Saturday? We had
a fairly heavy fall in the evening
and more yesterday but most of it
has melted today — the garden
looked exceedingly pretty yesterday.
I wish you could have seen it.

I will write again in a day or
two to report Peter's progress but, of
course, if you do feel like another
run down here before you go
abroad we shall be delighted to
see you.

Our love to you and Lucy

Yours A.L.B.

I was forgetting that my wife
is coming to lunch with you on
Wednesday; she will bring you
the latest news.
