June 11th 1935.

My dear Philip

We have been here just a week and have had very mixed weather all the time — windy, a good deal of rain and not much sun, not at all the sort of thing we ought to be having at this time of year. I hope it is going to change to something better soon as really it is hardly like summer. There was a lively thunderstorm Sunday night but it was not as bad as it seems to have been in other places along the South coast. This place is fairly full with the usual tripper crowd but it always is crowded during the summer months so one has to make the best of it — though I really do not like being in a crowd anywhere.

Are you still busy with portraits or have you changed to any other kind of work? I hope, anyhow, that you are not filling up your time too much with stencils.

undertakings and that you are allowing
yourself time to rest before you begin any
fresh activities. I have not attempted
any sketching here — though I did bring
my pastels with me — so far, but I
may try to do something if the weather
improves and if I can get out into the
country outside Bournemouth; there is
nothing in the place itself that one
could sketch.

I hope to see you soon; we ought to be
back in about a fortnight's time now.
Our love to you both

always yours
A.L.B.
