

An early springtime walk
lead by Plymouth Branch
to the upper River Plym area from
Cadover Bridge

Tuesday 16th April 2024

Following the Plym's bankside
paths to the Moorland edge we'll
search for early spring migrants
including **Sand Martins**
and **Whinchat** or even a few
Cuckoos freshly in from Africa.

Our familiar Dartmoor
residents will be represented
by **Reed Buntings, Pipits &
Wagtails, Stonechats,
Buzzards** and more.

The river too may hold
Dippers or a pair of
Goosanders.

Meet for 9:30 start in the free NT Cadover Bridge
car park at SX554645 –
