## **SAFETY INFORMATION: (Please retain for future reference)**

- This product must be installed in accordance with the national building regulations, if in doubt consult a competent electrician.
- Always turn off the mains supply before commencing the installation of this fitting .
- This is a Class 2 product and NOT requires an Earth connection – 230 (240) V – 50Hz AC.
- The Product should not be modified , as this may void the product warranty and render the product unsafe.
- We recommend the use of a suitable RCD, capable of carrying the intended load and which is correctly fused.
- Before inserting and replacing a lamp make sure that the power is switched off and the bulb has cooled down. Do not exceed the maximum stated wattage.
- Never leave packaging components within reach of children as they can be a source of danger.

### **POSITION:**

- The fitting is IP54 rated and suitable for installation in outdoor locations. We would recommend the light fitting is installed undercover.
- This fitting is not suitable for installation in location where floods may occur.
- The fitting is NOT suitable for installation in Marine locations.
- Ensure sufficient access to the fitting to enable safe maintenance.

### **LAMP INFORMATION:**

- We recommend LED lamps only.
- The fitting can be dimmed when using an LED dimmable lamp .
- Do not exceed the maximum wattage and bulb type stated on the lamp holder.

### **AFTERCARE AND MAINTENANCE:**

- Always disconnect power supply when servicing or cleaning.
- Clean only with a dry or slightly damp cloth
- Do not use abrasive cloths or cleaners as this may damage the product.
