

SAFETY INFORMATION: (Please retain for future reference)

- Always turn off the mains supply before commencing the installation of this fitting .
- This is a Class 1 product  and requires an Earth connection – 230 (240) Volts – 50Hz AC.
- This product must be installed in accordance with the national building regulations, if in doubt consult a competent electrician.
- Do not stare at the operating lamp .
- Do not modify or alter any product before or after installation. This may invalidate your warranty and may render the product un-safe.

POSITION

- This fitting is suitable for installation in Indoor locations only . 
- Ensure sufficient access to the fitting to enable safe maintenance.
- The Luminaire should be positioned so that prolonged staring into the luminaire at a distance closer than 0.2m is not expected

LED INFORMATION:

- We recommend LED lamps only.
- Do not exceed the maximum wattage and bulb type stated on the lamp holder.
- If dimming is required, suitable dimmable LED lamps must be used.

ADDITIONAL INFORMATION:

- The fitting has a 'rise and fall ' mechanism to allow height adjustment. To shorten the fitting hold each wire in turn and gently push upwards to the desire height, the support wire will freely move into the ceiling can. If required the fitting can be lengthened back to the original height, push the small metal release pins in individually, this will release the clamp and allow each support wire to become free to lengthen.

AFTERCARE AND MAINTENANCE:

- Always disconnect power supply when servicing or cleaning.
- Clean only with a dry or slightly damp cloth.
- Do no use any abrasive cloths or cleaners as this may damage the product .
