SAFETY INFORMATION:
(Please retain for future reference)

- Always turn off the mains supply before commencing the installation of this fitting .
- This is a Class 2 product and does not require an Earth connection – 230 (240) Volts – 50Hz AC. 
- This product must be installed in accordance with the national building and wiring regulations, if in doubt consult a qualified electrician.
- The Product should not be modified , as this may void the product warranty and render then the product unsafe
- We recommend the use of a suitable RCD, capable of carrying the intended load and which is correctly fused.
- The maximum “drive over “ weight limit is 1000Kg.

POSITION:

- The fitting is IP68 rated and suitable for installation in outdoor locations. 
- The luminaire should be installed inside the mounting box
- Ensure sufficient access to the fitting to enable safe maintenance. We recommend that that luminaire is not fixed permanently inside the mounting box as this will affect any maintenance required .
- The IP68 terminal box should be installed outside of the mounting box .
- We would recommend the use of suitable conduit when installing cable underground
- The Luminaire should be positioned so that prolonged staring into the luminaire at a distance closer than 0.2m is not expected.
- Do not stare at the operating lamp.

LED INFORMATION:

- The LED lamps are not replaceable, when the lamps reach the end of their life the whole luminaire shall be replaced.
- The LED lamps and chip board are not removable
- This fitting is not suitable for dimming

AFTERCARE AND MAINTENANCE:

- Always disconnect power supply when servicing or cleaning.
- Clean only with a soft cloth or sponge using warm soapy water and a non abrasive detergent .
- Do not use any abrasive cloths or cleaners as this may damage the product
