## **SAFETY INFORMATION: (Please retain for future reference)**

- Always turn off the mains supply before commencing the installation of this fitting.
- This is a Class 2 product and requires no Earth connection – 230 (240) Volts – 50Hz AC.
- This product must be installed in accordance with the national building regulations, if in doubt consult a competent electrician.
- Do not stare at the operating lamp.
- Do not modify or alter any product before or after installation. This may invalidate your warranty and may render the product un-safe.

## **POSITION**

- This fitting is suitable for installation in Indoor or Outdoor locations.
- If the fitting is installed outdoors we would recommend it is installed undercover and protected from constant driving rain.
- The fitting can be wall mounted or ceiling mounted.
- Ensure sufficient access to the fitting to enable safe maintenance.
- The Luminaire should be positioned so that prolonged staring into the luminaire at a distance closer than 0.2m is not expected.

## **LED INFORMATION:**

- The fitting is not suitable for dimming.
- The LEDs are not replaceable, when the lamps reach the end of their life the whole luminaire shall be replaced.

## **AFTERCARE AND MAINTENANCE:**

- Always disconnect power supply when servicing or cleaning.
- Clean only with a dry or slightly damp cloth.
- Do Not use any abrasive cloths or cleaners as this may damage the product.
