**GRAINLINE:** Place on straight grain of fabric, parallel to selvage or fold.

**FOLDLINE:** Place line on fold of fabric.

**BUTTONHOLE MARKING:** Indicates exact length and placement of buttonholes.

**BUTTON MARKING:** Indicates button placement.

**NOTCHES AND SYMBOLS:** For matching seams and construction details.

Indicates the Bustline, Waistline, Hip and/or Biceps. Measurements refer to circumference of Finished Garment (Body Measurement + Wearing Ease + Design Ease). Adjust pattern if necessary. The measurement excludes pleats, tucks, darts and seam allowances.

**SEAM ALLOWANCE:** 5/8" (1.5cm) included unless otherwise indicated, but not printed on tissue.

**PATTERN MARKINGS**

**ADJUST IF NECESSARY**

Lengthen or Shorten at adjustment lines (==) or where indicated on pattern. If substantial length is added, you may need to purchase additional fabric.

**TO SHORTEN:** Crease along adjustment line. Make a fold half the amount needed. Tape in place.

**TO LENGTHEN:** Slash between adjustment lines. Spread amount as needed, keeping edges parallel. Tape over paper.

When Alteration lines are not on tissue, lengthen or shorten at lower edge.

**CUTTING AND MARKING**

★ Cut other pieces first, allowing enough fabric to cut this piece. Open fabric. For "Cut 1" pieces, cut piece once on single layer of fabric with piece face up on right side of fabric.

Pattern may have cutting lines for several sizes. Select the proper cutting line or pattern pieces for your size.

Before **CUTTING** place all pieces on fabric according to layout. Pin. (Layouts show approximate position of pattern pieces; position may vary according to your pattern size.) Cut **ACCURATELY**, cutting notches outward.

Before removing pattern, **TRANSFER MARKINGS** and lines of construction to Wrong Side of fabric, using the Pin and Chalk Pencil method or Tracing Paper and Dressmaker Wheel. Markings needed on right side of fabric should be thread traced.

**NOTE:** Broken-line boxes (at bl cl) in layouts represent pieces cut by measurements provided.

**SHRINK FABRIC** if not labeled pre-shrunk. Press.

**CIRCLE LAYOUT** for View, Size, Fabric Width.

Use **WITH NAP** layout for fabrics with one-way designs, nap, pile or surface shading. Because most knits have surface shading, a with nap layout is used.

For **DOUBLE THICKNESS (WITH FOLD)** - fold fabric with right sides together.

\* **DOUBLE THICKNESS (WITHOUT FOLD)** - For fabrics with nap, fold fabric crosswise, right sides together. Mark as shown. Cut along crosswise fold of fabric (A). Turn upper layer 180° so arrows go in same direction and place over lower layer, right sides together (B).

For **SINGLE THICKNESS** - place fabric right side up. (For Fur Pile fabrics, place pile side down.)
